RAHUL SAHOO

S T U D E N T

As a B.Tech CSE student, I excel in **Web Designing**, crafting user-friendly websites. My **Analytical Thinking** helps me solve complex problems, while my **Java Development** experience includes hands-on programming and application creation. I am proficient in **Text Formatting** for clear documentation and experienced in **Project Management**. Additionally, I use **Microsoft Word** effectively for professional documents. These skills prepare me to tackle challenges in computer science and engineering.

PROJECT

GitHub Repository: https://github.com/Raw-Coder-Rahul/e-Raw-learn-2.0-.git

Webpage: https://raw-coder-rahul.github.io/e-Raw-learn-2.0-/

Description: Developed a comprehensive eLearning platform focused on enhancing the digital learning experience for users. This platform features a user-friendly interface, engaging content presentation, and responsive design elements. It includes various pages such as Home, Topics, eBooks, and About Us, and implements interactive elements like dropdown menus and animated buttons to improve user engagement and navigation. The project showcases my skills in web development, design, and project management.
